

## About us

TT is a cloud-based platform that connects people with events of all sizes. Sourcing revenue is one thing, but at TT we also realise the importance of data in maximizing your money generating efforts. So we have created a unique, fully customisable and cost-effective software package.

This innovative system can produce comprehensive reports and analytics that can help you to track and manage every project, highlighting areas of both strength and weakness. This allows your charity, club or non-profit to increase efficiency, revenue and profitability, while reducing operating costs.

And there is no need to worry about the technical side, because TT can be integrated seamlessly into your existing social media or web pages , and even if you do have challenges or questions, we have a team of experts on hand to help.

The software is simple to use however we are happy to help get you started by setting up your first event , just call the team on +(44) 0 1294 480361 to get some help getting started.
